Jet Elevator
Italian Home Lifts

Established in the year 2005, in Mumbai – (the commercial capital of India), Jet Elevator has been providing solution for vertical transportation needs. We are a Government licensed company, engaged in supply, installation and servicing of elevators. Keeping our eye on latest trends in the market and exploring challenging opportunities, to enter new segments in the elevator industry, we started doing collaborations on national as well as international level. We decided to enter into home elevator segment during our expansion spree. We introduced exclusive range of home elevators suitable for high - end duplex, villa, bungalow, row house, showroom, where conventional elevator cannot be installed. Our elevators are designed and manufactured with international safety standards.

In a very short span of time we supplied our home elevators to bollywood celebrities, renowned builder developers, business tycoons, influential politicians, corporates and many HNI customers across the country. We understand our client's comfort, safety and provide them with the most appropriate solution using our technical knowledge. Without compromising on safety and quality we provide our home elevators at a reasonable cost.

Our home elevators are popular in the market due to its easy installation process, flexibility in size, variety of finishes available for selection and smooth & noiseless operation. At Jet elevator we take extra effort to supply world class products and support our customers with equally good quality after sales service, because we believe that, the best advertising is done by a satisfied customer.
